Greetings, David..

My name is Owen Smith. I work with Forbidden Books
(Don't bother researching us, we only make ourselves known by our own devices and to certain individuals in possession of books of our interest)

We are emailing you to inform you that we have noticed a couple of items missing from the Masonic titles record library. As you may know, since you own or have owned such esoteric literature, how much value they have to certain people educated in the area of masonry, sorcery, sacred oaths, etc.

Our bookstore is completely remote and runs on a system of trusted patrons and masons, who in turn have access to a very confidential database in which we can track the most desirable books not yet in one of our patrons' possession. We have noticed a few books that were once owned by a person unaware of the importance of such books, entrusted to you with the responsibility of caring for the books, no?

These books, for which we do not have access to the titles, only the authors, and a tip that they may be desirable in our system, have disappeared. This only occurs if they are destroyed, or if a person is educated in the art of dismantling the tracking devices in most books of the masonic nature.

Would you be so kind as to provide us with any information if you have any of the books?

And if you are still in possession of said books, and this is possibly a glitch in the system, would you be interested in discussing selling the books?

I don't have any such books. My mom's friend Debra - her uncle was a 33rd degree mason and Bohemian Club member. Debra had his things in storage and threw those things away. Sorry

Were you in possession of or destroy any of the books?

I do not have any of the books. My mom's friend Debra had her uncle's belongings in storage. She left boxes of things belonging to her uncle at my dad's house.
I helped her put things back into her car. The 'glitch' is that Debra was entrusted with the books, not me.
You would have to ask her. Thanks.

Last time to tell the truth, David. Or we may have to take masonry action against theft and destruction of sacred literature.

I do not have any thing to do with masons
Debra's uncle gave those to her, she had those in storage and temporarily left boxes in our garage. She headed back to New Mexico. I believe you need to address that with Debra. I had nothing to do with any of it.

Also, the name of Debra's uncle is Ernie Riese. He lived in San Francisco. Debra left boxes in our garage that had been in storage. She picked up her boxes recently and headed back to New Mexico. I don't have any thing to do with masons.
