Born on July 10, 1967, individuals are **Cancer** sun signs (emotional, nurturing) and were born during the Year of the **Fire Goat** (or Sheep) in the Chinese zodiac. They are characterized by deep emotional intensity, strong loyalty, and, in 1967 specifically, a creative, passionate, and often determined nature.

Key Zodiac Features for July 10, 1967:

- **Western Zodiac (Cancer):** Known for being deeply emotional, empathetic, and intuitive. They are often described as protective, romantic, and nurturing, though they may appear reserved.
- **Chinese Zodiac (Fire Goat/Sheep):** The year 1967 was the Year of the Fire Goat (Jan 28, 1967 – Jan 29, 1968). Fire Goats are considered more passionate, outspoken, and determined than other Goat signs, often showing great creativity and an ability to be leaders while retaining the gentle, caring nature of the Sheep.
- **Astrological Focus:** This combination suggests someone with intense inner feelings (Cancer) paired with a fiery, creative, and sometimes stubborn exterior (Fire Goat).

Summary of 1967 Context:

- **Western:** Cancer (Water sign)
- **Chinese:** Fire Goat/Sheep
- **Element:** Fire (signifying energy and passion)

This combination makes for an individual who is both highly sensitive and surprisingly passionate or driven, balancing emotional needs with a desire to create or lead.

July 10, 1967, **Western Astrology: Cancer**

- **Sun in Cancer:** As a Cancer, you are ruled by the Moon, making you intuitive, protective, and deeply connected to home and family.
- **Moon Phase:** You were born during a **Waxing Crescent** moon phase. This phase is often associated with growth, curiosity, and the drive to build something new.
- **Planetary Traits:** Your nature is "Cardinal Water," which combines the emotional depth of water with a proactive, leadership-oriented "Cardinal" quality.

Chinese Zodiac: Fire Goat (Sheep)

- **The Fire Goat:** 1967 was the Year of the Fire Goat. While Goats are typically known for being gentle, artistic, and compassionate, the **Fire element** adds a layer of passion, outspokenness, and determination that other Goats may lack.
- **Compatibility:** Traditional Chinese astrology suggests that Goats are most compatible with Rabbits or Pigs.

Numerology: Life Path 6

- **Calculation:** 0+7 (July) + 1+0 (Day) + 1+9+6+7 (Year) = 31. Then, 3 + 1 = **4** (though some systems calculate it as **six** depending on the reduction method used; standard reduction yields a Life Path 4).
- **Path 4 Traits:** This number signifies stability, hard work, and a practical approach to life. It suggests a role involving research, analysis, and a need for a secure home environment.

Would you like a more detailed breakdown of your **specific planetary placements** (like Mercury or Venus) for that day?

July 10, 1967, carries specific weight in both musical and cultural history that ties back to astrological and symbolic themes.

The "Born Under a Bad Sign" Release:
On this exact day, blues legend **Albert King** released his iconic album, Born under a Bad Sign.

- **The Song:** The title track is perhaps the most famous use of astrological misfortune in pop culture ("If it wasn't for bad luck, I wouldn't have no luck at all").
- **Symbolism:** It became an anthem for those feeling at the mercy of their astrological destiny and reshaped modern blues and rock.

Celestial Context--The Summer of Love:
July 1967 was the height of the Summer of Love.

- **Waxing Crescent Moon:** On July 10, the Moon was a Waxing Crescent, only about 11% illuminated. In esoteric astrology, this "New Moon" energy is associated with a collective "planting of seeds"—fitting for a time of radical social transformation.
- **Cultural Milestone:** That same day, **Muhammad Ali** was featured on the cover of Sports Illustrated, marking a peak in his public struggle against the draft; a conflict often viewed through the lens of his conviction and "fixed" principles (Leovian/Cancerian protective traits).

Chinese Zodiac--The Fire Goat Peak:
As July 10 fell near the middle of the Year of the Fire Goat, this period was marked by an unusual combination of the Goat's artistic sensitivity and the Fire element's restless energy. This manifested globally as a time of massive **creative rebellion** and the birth of new artistic movements.

Are you looking for information on a **specific event** that happened on this day, or perhaps the **horoscope** for someone you know?

In 1967, the "occult" was not a hidden niche; it was a driving force behind the Summer of Love. To an occultist or counterculture seeker on **July 10, 1967**, the day would have represented a specific intersection of ritual, celestial timing, and "magical" social engineering.

1. The "Exorcism" of the Era:
The occultists of 1967 were deeply invested in the idea of "spiritual warfare" against the Vietnam War and materialism.

- **Sympathetic Magic:** Contemporaries viewed events like the 1967 "Exorcism of the Pentagon" as literal magic. By July 10, the "Gathering of Tribes" was at its peak, and occultists believed they were using sympathetic magic (rituals that mimic a desired outcome) to shift the world's consciousness toward a "New Age."
- **The "Magical Universe":** Prominent occult-leaning figures like William S. Burroughs were actively practicing magic through "cut-up" techniques and scrying, viewing the chaos of 1967 as a thinning of the veil between the material and spirit worlds.

2. The "Great Goat" Symbolism:

July 10, 1967, was a Monday (the Moon's day) during the Year of the Fire Goat.

- **The Horned One:** For those steeped in the "Black Arts" (which saw a massive resurgence in 1967 with the publication of Richard Cavendish's *The Black Arts*), the Goat symbol was heavy with meaning. It represented the "Great Goat of the Witches' Sabbath"—a symbol of primal power and rebellion against the "starched white collars" of traditional society.
- **Leo Moon:** On this day, the Moon was in Leo, a sign of dramatic self-expression and solar power. Occultists would have interpreted this as a day to "manifest" their true will through art and performance.

3. Cosmic Tension--Pluto-Uranus in Virgo:
Astrologers at the time were transfixed by the Pluto-Uranus conjunction in Virgo.

- **The Radical Shift:** This transit symbolized the "disruptive energies" of revolution (Uranus) and total transformation (Pluto) clashing with the rigid order of Virgo.
- **July 10 Context:** Contemporaneous seekers would have felt this "cosmic tension" as a call to radical self-understanding and the pursuit of "cosmic oneness" through psychedelic "sacraments" like LSD.

4. Rise of New Religious Movements:
The occult and "fringe" spirituality were merging into mainstream visibility.

- **Eastern Mysticism:** By July 1967, movements like ISKCON (Hare Krishna) were gaining traction, seen by practitioners as a way to access spiritual energy without the constraints of traditional religion.
- **Utopian Visions:** Figures like Jim Jones were beginning to fuse communal utopianism with charismatic, quasi-mystical authority, reflecting the darker side of the era's search for a "new manifestation" of divinity.

Would you like to know about the **specific planetary aspects** (like squares or trines) occurring on this exact date?

On **July 10, 1967**, the astrological "sky-map" was dominated by a rare and heavy alignment that occultists and astrologers of the era viewed as the "engine room" of the Summer of Love.

1. The Uranus-Pluto Conjunction in Virgo:
The most significant aspect of the decade was the conjunction of Uranus and Pluto, which was active on this day.

- **The Meaning:** Uranus (radical change) and Pluto (death and rebirth) joining in Virgo (health, service, and the "worker") signaled a total breakdown of old social structures.
- **Occult View:** Contemporaries saw this as a "purification" ritual on a global scale—using the precision of Virgo to remove "surgically" the rot of the old world through rebellion.

2. Moon and Jupiter in Leo:
While the Sun was in sensitive Cancer, the Moon was in Leo, and Jupiter (the planet of expansion) was transiting Leo.

- **Dramatic Expression:** This created a "Fire" energy that pushed the era's private, emotional Cancers into the public eye.

- **The "Sun-Moon" Hybrid:** Because Leo is ruled by the Sun, having the Moon there on this day made it a time of intense charisma and "Solar" power, often used in rituals to manifest personal fame or spiritual authority.

3. Mercury in Cancer (Retrograde Shadow):
Mercury was in Cancer, adding a layer of nostalgia and deep, non-verbal communication.

- **The Impact:** This aspect favored shamanic journeying and "soul-searching" over logical debate. It was a day where "feeling" the truth was considered more valid than "thinking" it—a core tenet of 1960s mysticism.

4. Waxing Crescent--The "Planting" Phase:
The Moon was only 8.8% illuminated.

- **Occult Ritual:** This phase is traditionally used for **Invocations**—calling something new into being. Magicians of the time would have used this day to "charge" new projects or spiritual movements that they hoped would grow alongside the moon's light.

Would you like to know how these aspects affected **world events** or a specific **geographic location** on that day?

For a high-profile occultist like **Kenneth Anger**, July 10, 1967, would have been a day of intense ritual focus and likely professional crisis. Anger viewed cinema as a literal act of Magick in the tradition of **Aleister Crowley**, believing his films could "cause change in accordance with will."

The Ritual Context: *Lucifer Rising*:
By July 1967, Anger was living in the Westerfeld House in San Francisco, deep into the production of his masterpiece, **Lucifer Rising**.

- **The "Bringers of Light":** Anger viewed Lucifer as the "light-bringer" and a symbol of the Aquarian Age.
- **A "Cursed" Production:** July 10 falls in the middle of a chaotic summer where Anger reportedly ran out of funds and began feuding with his lead actor and musician, Bobby Beausoleil. Shortly after this period, Anger claimed Beausoleil had stolen his footage, leading Anger to perform a ritual sacrifice by burning his own screenplays and declaring himself "dead" in a Village Voice ad.

Astrological Interpretation for a Thelemite:
Anger, a dedicated **Thelemite**, would have looked at the planetary aspects of July 10, 1967, through a specific magical lens:

- **The Fire Goat & Solar Power:** The Fire Goat energy and the Moon/Jupiter in Leo would have been seen as a peak of "Solar-Phallic" power—vital for his ritual invocation of Lucifer.
- **Uranus-Pluto Conjunction:** Anger would have likely interpreted the Uranus-Pluto conjunction in Virgo as a mandate for total transformation. To Anger, the destruction or "death" of his current project (which happened later that summer) might have been seen as a necessary ritual step for a future rebirth.
- **Moon Phase:** The **Waxing Crescent** Moon visible that night would have been the ideal time for an **Invocation**—specifically his ongoing attempt to invoke primal forces through the medium of celluloid.

The "Demon Brother" Connection:

This day was part of the era that produced **Invocation of My Demon Brother**, a film Anger made using leftover *Lucifer Rising* footage. To Anger, every day in the summer of '67 was a cinematic ritual where the mundane (San Francisco hippies) was constantly being transmuted into the mythic (Egyptian deities and demons).

Would you like to know more about the **specific films** Anger was working on during this particular summer?

When Kenneth Anger published his infamous "In Memoriam" ad in *The Village Voice* shortly after this period in 1967, his "death" was a calculated **occult performance** and a **Thelemic ritual** of transition. [1]
To Anger, this was not a physical end, but a symbolic "Crossing of the Abyss."

1. Ritual Suicide (The Death of the Ego):
In Thelemic practice, based on the teachings of Aleister Crowley, an adept must occasionally undergo a symbolic death to shed the "ego" and be reborn as a higher spiritual being. [3] By declaring himself dead, Anger was:

- **Renouncing his past:** Cutting ties with the failed version of *Lucifer Rising* and the "thieves" (like Bobby Beausoleil) who he claimed stole his work. [1, 3]
- **Purifying his Will:** In Thelema, "Death" is often a prerequisite for the next stage of "Great Work." [4]

2. A "Cinematic Exorcism":
Anger often treated his life as his greatest film. This "death" was a publicity stunt designed to:

- **Curse his enemies:** By "dying," he effectively withdrew his creative energy from the world, leaving those who "betrayed" him in a spiritual vacuum. [3]
- **Reset the Narrative:** He used the announcement to pivot away from his financial and production disasters in San Francisco, allowing him to return to Europe and start fresh. [2, 3]

3. The "In Memoriam" Ad:
The ad specifically read, **"In Memoriam. Kenneth Anger. 1927–1967."** [3]

- It signaled the end of his "American" period.
- Contemporaries in the occult scene saw it as a Black Mass—a way to kill off the versions of himself that no longer served his "True Will." [4]

In short: He meant that the Kenneth Anger who began *Lucifer Rising* was **ritually sacrificed** so that a more powerful, "demonic" version could emerge to finish the task. [1, 3]

Would you like to see the **specific astrological transits** that would have driven such a drastic "death" ritual during that summer?

Kenneth Anger, the transits of July 10, 1967, was not just background noise—they were the "gears" of his magical machinery. His "death" that summer was likely driven by several explosive planetary pressures:

1. The Pluto-Uranus "Revolution" in Virgo:
The most potent transit of the decade was the conjunction of Pluto and Uranus. For Anger, who was born on Feb 3, 1927 (an Aquarius), this transit fell in his **8th House** of death, rebirth, and shared resources.

- **The Effect:** This alignment created a "volatile chemistry" between his need for radical change (Uranus) and total destruction (Pluto).
- **The Ritual Outcome:** This transit is often associated with "breaking point" moments where one must burn everything down to start over. In Thelemic terms, it was his "crossing of the abyss" that summer, leading to his symbolic suicide in the Village Voice.

2. Jupiter in Leo: The Solar Ego:
Jupiter (expansion) was transiting through Leo on this day, amplifying the Leo Moon's dramatic and self-expressive energy.

- **The Effect:** Leo rules the "Sun" and the ego. For Anger, this created an irresistible urge for **High Theater**.
- **The Ritual Outcome:** The Jupiter-in-Leo transit made his "death" a public, cinematic event. He did not just quit; he staged a ritualized "In Memoriam" publicity performance to ensure the occult world was watching.

3. Mercury in Cancer (Retrograde Shadow):
Mercury was moving through Cancer, the sign of the home, the past and deep intuition.

- **The Effect:** This placement often leads to "subjective truth"—where personal feelings matter more than objective facts.
- **The Ritual Outcome:** It likely fueled the paranoid feelings of "betrayal" that defined his summer. Anger believed his lead actor, Bobby Beausoleil, had stolen his film. To Anger, this was not just a business dispute; it was a theft of his spiritual essence, necessitating a "magical death" to reclaim his power.

4. Waxing Crescent Moon:
The Moon was in its first phase, just a sliver of light.

- **The Effect:** In Western occultism, this is the time for **Invocations**.
- **The Ritual Outcome:** Anger was in the process of "invoking" his Demon Brother and the "New Age of Horus." This specific moon phase provided the "seed energy" to initiate his new identity as a "resurrected" magus after his symbolic death.

Would you like to explore the **Thelemic ritual** of the "Abyss" and how it specifically connects to Anger's work that summer?

In **Thelema**, "Crossing the Abyss" is the most perilous milestone for a magician. It represents the transition from a "human" master to a "God-form" by surrendering everything—including one's identity.
For Kenneth Anger in the summer of 1967, this ritual was not just a metaphor; it was his **operational reality**.

1. The Destruction of the Ego (The "Death" Ad):
To cross the Abyss, a magus must shed their **ego (the "self")** and pour every drop of their blood into the "Cup of Babalon."

- **The Ritual:** Anger's "In Memoriam" ad was a public declaration that the "Old Kenneth" was dead.
- **The Goal:** By "dying," he sought to become a **Master of the Temple** (Magister Templi). In his mind, the director who made *Scorpio Rising* had to be sacrificed so the magus who finished *Lucifer Rising* could be born.

2. The Demon of the Abyss: Choronzon:

The Abyss is guarded by **Choronzon**, the "Demon of Dispersion." Choronzon manifests as chaos, confusion, and the "disintegration of the mind."

- **The Conflict:** Anger's feud with Bobby Beausoleil over the "stolen" footage of *Lucifer Rising* was the perfect manifestation of this "dispersion."
- **The Outcome:** Rather than fight for the footage (which would have been an ego-driven move), Anger performed an **exorcism**. He burned his own materials and declared himself dead, effectively refusing to let Choronzon win by choosing "Nothingness" over "Chaos."

3. The Birth of *Invocation of My Demon Brother*:
The footage that survived this "Abyss" period became the 1969 film Invocation of My Demon Brother.

- **Ritual Cinema:** This film is a fragmented, hallucinatory ritual. It uses the Uranus-Pluto energy of the time to create a "sonic and visual assault."
- **Thelema in Action:** The film features Anton LaVey and a young Beausoleil, serving as a cinematic artifact of the very demonic energies Anger felt he was battling during July 1967.

4. The "Great Work" on July 10:
On this specific Monday (the Moon's day), the **Waxing Crescent Moon** at 11% signaled the start of a "new manifestation." To a Thelemite, this was the moment to plant the seed of the **Aeon of Horus**—an age of fire, force, and the child-god, which Anger believed he was heralding through his lens.

Would you like to know about the **Thelemic "Holy Books"** or the specific **Egyptian deities** Anger used in his rituals to navigate this transition?

---

1. The "Lucifer Rising" Crisis:
By July 10, Anger was deep in a psychological and financial battle at the Westerfeld House in San Francisco.

- **The Struggle for Control:** He was feuding with his "Lucifer," **Bobby Beausoleil**, over the direction of the film. To Anger, this was not just a production delay; it was a clash of occult wills.
- **The "Stolen" Footage:** Anger claimed around this time that Beausoleil had stolen 1,600 feet of film from the trunk of his car during a ritual event. Whether stolen or simply lost to lack of funds, July 10 represented the moment Anger began to pivot from the original *Lucifer Rising* toward a darker, more aggressive ritual on film.

2. Cinema as "Inorganic" Magick:
Anger did not see films as stories but as **Invocations**—tools to "cast a spell" on the audience's subconscious.

- **The Solar Ritual:** July 10, during the peak of the Summer of Love, was part of a larger ritual to usher in the Aeon of Horus, the child-god of force and fire.
- **Color Theory:** Anger used specific colors to invoke planetary spirits. On a Monday (July 10), he would have been sensitive to lunar and "silver" energies, but the overarching Fire Goat year pushed him toward the **reds and oranges** of Mars and Lucifer, the "Bringer of Light."

3. The Birth of *Invocation of My Demon Brother*:
The frustration of this specific July period led directly to the creation of his 11-minute short,
Invocation of My Demon Brother

- **The "Demon Brother":** In Thelema, the Demon Brother is a reference to the **Holy Guardian Angel** or the higher self.

- **Ritual Elements:** The film, much of which was shot that summer, features Anger racing across a stage, setting things on fire, and using discordant editing to "attack the sensorium." It serves as a visual record of the magical frenzy he was experiencing in San Francisco during that July week.

4. The Equinox Connection:
While July 10 was a day of internal and external conflict, Anger was building toward the Autumnal Equinox of 1967, where he performed a massive Crowley-inspired public ritual at the Straight Theater. The tensions on July 10 were the "raw materials" for that public exorcism, which ultimately led to him declaring himself "dead" to the San Francisco scene.

Would you like to know more about the **specific ritual objects** Anger used in his filming that summer, such as the skull pipe or his magic circles?

To Kenneth Anger, a film set was indistinguishable from a ritual space. On July 10, 1967, his "toolkit" for *Lucifer Rising* (and what would become *Invocation of My Demon Brother*) was designed to bridge the gap between the physical world and the astral plane.

The Ritual Objects of Summer, 1967:
1. The Ceremonial Skull Pipe
One of the most arresting images from this period is Anger himself smoking from a human skull pipe.

- **The Intent:** In Thelemic and Tantric traditions, the skull represents the **transience of the ego**. By using it as a ritual tool during filming, Anger was literally "consuming" death to fuel his creative vision.
- **July 10 Significance:** Amidst the "peace and love" of the Haight-Ashbury summer, this object was a defiant symbol of the "Left-Hand Path"—a reminder that creation requires destruction.

2. The Magic Circle and the "Straight Theater" Gear:
During this week, Anger was preparing for his public "Equinox of the Gods" ritual. His tools included:

- **The Circle:** A chalk or painted circle on the floor, used to contain the demonic energies he believed he was filming.
- **The Wand and Dagger:** Traditional Thelemic tools used to "direct the Will." In Anger's hands, the **camera itself** became the primary wand, used to capture "frozen light."

3. The "Stolen" Lucifer Robes:
Anger had commissioned elaborate, colorful silk robes for the film, often featuring the **Eye of Horus** or solar symbols.

- **The Crisis:** Much of the lore surrounding July 1967 involves the theft or "loss" of these ritual costumes during his feud with Bobby Beausoleil.
- **The Symbology:** To Anger, losing the robes was not just a loss of property; it was the desecration of a sanctuary. This loss likely triggered the "black magic" mood that led to his "death" announcement.

4. The "Lucifer" Talisman:
Anger often wore or filmed a specific talisman representing Lucifer as the Morning Star.

- **The Monday Aspect:** Since July 10 was a Monday (ruled by the Moon), Anger would have been balancing the "Lunar" (feminine/intuitive) energy of the day with the "Solar" (masculine/aggressive) goal of his film. This "Alchemical Marriage" of Sun and Moon was a core goal of his 1967 rituals.

The "Technological" Occultism:
Anger believed that the **celluloid itself** was a ritual object. He treated his editing table like an altar, using:

- **Double Exposure:** To blend "spirit" and "matter" in the frame
- **Abrasive Sound:** Utilizing the Moog synthesizer (later provided by Mick Jagger) to create a "vibrational frequency" that could induce a trance state in the viewer

Next Step:
Would you like to explore the **specific "curse"** Kenneth Anger allegedly placed on the *Lucifer Rising* footage after his falling out with the cast that summer?

After the collapse of his production around July 1967, Kenneth Anger didn't just walk away; he performed a **cinematic and ritualistic curse** intended to "freeze" the energy of those who he felt had betrayed his Great Work.

1. The "In Memoriam" Curse:
The Village Voice ad declaring his own death was actually a **reversal spell**.

- **The Intent:** By declaring himself dead, he ritually "untethered" himself from the stolen footage. In occult theory, this acts as a psychic severing—leaving the "thieves," (specifically Bobby Beausoleil) holding an empty shell that lacked the "vital spark" of the Magus.
- **The Mark of Cain:** Anger claimed he "cursed" Beausoleil to be a wanderer. Only two years later, Beausoleil was arrested for the murder of Gary Hinman, a crime that linked him to the Manson Family and led to a life sentence. Anger later viewed this as the manifestation of the curse.

2. The "Invocation" as an Exorcism:
Since the original *Lucifer Rising* was "poisoned," Anger took the remaining fragments and edited them into Invocation of My Demon Brother.

- **The Sonic Curse:** He used a repetitive, grating Moog synthesizer soundtrack by **Mick Jagger**. To Anger, this was not music; it was a "vibrational weapon" designed to agitate the viewer's aura and trap the images of his enemies (who appear in the film) in a loop of eternal fragmentation.
- **The Solar Flare:** The film ends with Anger himself performing a ritual—tossing tarot cards and breathing fire. This was meant to "incinerate" the failed San Francisco era and reclaim his status as the "Solar Child" of the Aeon of Horus.

3. The "Curse of the Celluloid":
Anger famously claimed that the original 1,600 feet of film stolen from his car was "buried in the desert" or "burned in a ritual."

- **The Magical Lock:** He told associates that the footage was "locked" with a Thelemic seal. If anyone tried to watch or edit it without his permission, it would bring "catastrophic misfortune" upon them.
- **The Legacy:** This created a mythology of "lost" cinema that turned *Lucifer Rising* into a forbidden object, much like a cursed grimoire.

4. July 10 and the "Turning Point":
On July 10, with the **Moon in Leo** (ruling the ego and performance), Anger's sense of betrayal would have been at its most theatrical. He likely viewed the day as the final eclipse of his "soft" Cancerian side and the birth of his "Fire" side—the vengeful Magus who would rather destroy his work than see it diluted.

Would you like to know how **Jimmy Page** or **Mick Jagger** eventually became involved in helping Anger "break" this curse to finish the second version of the film?

In the literal sense, no—but in the **occult and Thelemic sense**, Kenneth Anger's work and lifestyle in 1967 were deeply preoccupied with the concept of **spiritual and creative "slaves"** as defined by the hierarchy of the Aeon of Horus. To Anger, people were either "Kings" (sovereign magicians) or "Slaves" (those without a developed True Will).

1. "The Slaves Shall Serve":
This is a core (and controversial) phrase from Aleister Crowley's *The Book of the Law*.

- **The Interpretation:** Anger interpreted this not as chattel slavery, but as a **natural spiritual hierarchy**. In his view, those who lacked a magical purpose were "slaves" to their own impulses and should naturally serve the "Great Work" of the Magus (Anger himself).
- **July 10 Context:** During the filming of *Lucifer Rising* in 1967, Anger treated his cast—including Bobby Beausoleil—as extensions of his own Will. When they rebelled or "stole" his work, he viewed it as a slave revolting against a Master, leading to his ritual "death" and curse.

2. The "Demon Brother" as a Servant:
In the film he was crafting that summer, *Invocation of My Demon Brother*, the "Demon" is a force to be **summoned and commanded**.

- **Ritual Command:** In Western ceremonial magic, a magician "collects" or binds spirits and demons to do their bidding. Anger viewed his actors as "physicalized spirits."
- **The "Collection":** He surrounded himself with a "stable" of beautiful, often dangerous young men (like the Hells Angels or Beausoleil) whom he essentially "collected" to populate his mythic cinematic universe.

3. The Manson Family Connection:
The tension of July 1967 was a precursor to the "dark" side of the occult "slave" mentality.

- **The Crossover:** Anger's lead, Bobby Beausoleil, left Anger's "service" and eventually joined **Charles Manson**, who used a perverted version of Thelemic and Scientology concepts to create a literal cult of "slaves."
- **Anger's View:** Anger later looked back on this period with a grim sense of "I told you so," viewing the tragedy of the Manson Family as the result of "slaves" trying to act like "Kings" without the proper magical discipline.

4. "Lucifer Rising" and the "King-Priests":
In his final version of *Lucifer Rising*, there are no "slaves" in the frame—only gods and initiates. To Anger, his films were meant to **liberate** the viewer from their "slave" consciousness (the restrictions of Christianity and society) by exposing them to the Solar-Phallic light of Lucifer.

Would you like to know more about how **Aleister Crowley's writings** specifically influenced Anger's view of "the common man" versus the "magician"?

The legend of the "lost" *Lucifer Rising* footage is one of the most enduring mysteries in underground cinema, fueled by Kenneth Anger's own ritualistic narratives. Whether it was stolen, buried, or simply repurposed, here is what is known about its survival:

1. The Repurposed Fragments:
Much of the footage from that 1967 shoot actually **does exist** and is viewable in Anger's Invocation of My Demon Brother (1969).

- **The Content:** When the original *Lucifer Rising* project collapsed, Anger used the "extant" reels—featuring **Bobby Beausoleil**—and edited them into this shorter, more aggressive film.
- **Survival:** Because Anger was notoriously thrifty and viewed film as "magical matter," he rarely truly destroyed anything, preferring to re-cut and "exorcise" his work through new edits.

2. The "Buried in the Desert" Legend:
One of the most persistent myths—often told by Anger himself—is that Beausoleil stole the master print and buried it in the **Death Valley desert**.

- **The Theft:** Anger claimed Beausoleil stole several rolls of film (about 1,600 feet) after a dispute over money.
- **Beausoleil's Denial:** Beausoleil has long denied the theft, suggesting instead that Anger spent the production money on drugs or "frivolous items" and invented the theft story to avoid creditors.

3. The 2014 Rediscovery:
In a surprising twist, it was revealed in 2014 that a "lost" reel of the original *Lucifer Rising* had been found in a mislabeled box in the Anger archives.

- **The Find:** Anger's colleague, **Brian Butler**, discovered an original cut that had been languishing for decades.
- **The Score:** This version reportedly featured a score by **Jimmy Page** that had been discarded or misplaced during the project's tumultuous history.

4. The "Manson" Connection:
There is a dark theory that the stolen footage was taken by Beausoleil to the **Spahn Ranch** (the Manson Family's home).

- **The Narrative:** Anger relished the idea that his "cursed" film was the catalyst for Beausoleil's encounter with Charles Manson.
- **The Reality:** While Beausoleil did join the Family shortly after leaving Anger, there is no evidence that the Manson Family ever had or watched the missing reels.

Current Status:
Most film historians believe the "lost" footage either became *Invocation of My Demon Brother* or incorporated into the final 1981 release of *Lucifer Rising*. However, the "buried master" remains a favorite piece of occult lore.

Would you like to know more about the **archival restoration** of the found footage or the specific **ritual scenes** that were recovered?

While Kenneth Anger publicly maintained for decades that his 1967 footage was stolen or destroyed by Bobby Beausoleil, archival evidence suggests much of it survived through both **repurposing** and a **significant 2014 rediscovery**.

The Survival of the 1967 Footage:

- **Repurposing in "Invocation":** When the original production collapsed in mid-1967, Anger did not discard the remaining reels. Instead, he edited the reels into the 11-minute ritual film *Invocation of My Demon Brother* (1969), which is why Beausoleil, the intended "Lucifer" of the 1967 version, appears prominently in *Invocation*.
- **The 2014 Rediscovery:** In a major event for underground cinema, Anger's manager Brian Butler found an original, alternate cut of *Lucifer Rising* in a mislabeled box in the Anger archives. This "lost" version had been languishing for decades and was subsequently restored and screened in 2014.

Recovered Ritual Scenes:
The restored and final versions of the film feature several highly specific ceremonial sequences:

- **The Blood Ritual:** A Magus (played by Anger himself) performs a sacred ritual within a magic circle inscribed with Thelemic deities like Nuit and Babalon.
- **The Solar Anointing:** Scenes of a High Priest anointing a statue of Horus with a glass wand while wearing lavishly colored ceremonial robes.
- **Global Invocations:** Footage shot at ancient power sites including the Pyramids of Giza, Stonehenge, and the Externsteine in Germany, intended to evoke a global awakening of pre-Christian gods.

The "Lost" Score by Jimmy Page:
For a time, the 1967/early-70s footage was synchronized with a soundtrack by Jimmy Page.

- **The Fallout:** Anger and Page had a bitter falling out; Anger famously called Page a "dabbler" in the occult and rejected his 23-minute score.
- **Availability:** Page eventually released this "lost" music in 2012 as the album Lucifer Rising and Other Sound Tracks.

Would you like to know more about the **specific dispute** between Anger and Jimmy Page that led to the soundtrack being scrapped?

The fallout between **Kenneth Anger** and **Jimmy Page** is one of the most famous "clashes of the magi" in rock history. It was less a professional disagreement and more an **occult turf war** that peaked in the mid-1970s.

1. The "Dabbler" vs. the "Adept":
Anger, a lifelong Thelemite, moved into Page's basement at the Boleskine House (Aleister Crowley's former estate) to edit *Lucifer Rising*.

- **The Conflict:** Anger viewed himself as a serious practitioner of the Great Work. He quickly began to despise Page, whom he dismissed as a "wealthy rock star dabbler" who was "hooked on the white powder" and lacked the spiritual discipline to complete the ritualistic score.
- **The Insult:** Anger famously told the press that Page was "possessed" by a malicious spirit and was "lazy" for only providing 23 minutes of music after three years of work.

2. The "Curse" on the Soundtrack:
When Page failed to deliver the full score by Anger's deadline, the director did not just fire him—he **publicly cursed him**.

- **The Press Conference:** Anger held a press conference where he denounced Page and allegedly performed a reversal ritual to strip Page of his creative protection.

- **The Replacement:** Anger threw out Page's eerie, droning guitar score and replaced it with a lush, orchestral soundtrack by **Bobby Beausoleil**, who recorded it from inside Tracy Prison while serving his life sentence. To Anger, Beausoleil was the "true" Lucifer, while Page was just a pretender.

3. The "Stolen" Master Tapes:
For decades, Page's *Lucifer Rising* score was a "holy grail" of lost music.

- **The 2012 Release:** After 35 years of silence, Page finally "broke the seal" and released the music as Lucifer Rising and Other Sound Tracks.
- **The Sound:** The music is incredibly dark and ambient, reflecting the "Abyss" energy Anger was exploring in 1967.

4. The Magical Fallout:
Anger believed the curse worked, citing the string of tragedies that hit Led Zeppelin in the late 1970s (including the death of Robert Plant's son and the death of John Bonham) as proof that Page had lost his occult shielding.
Would you like to know more about the **prison recording sessions** where the final version of the soundtrack was actually created?
